SSC
Completed in 2011

About Me

"Hello! I'm Prashant Gohil, a skilled Shopify frontend developer with 2 years of professional experience. I have a passion for creating visually appealing and user-friendly online stores that engage customers and drive conversions.

With a strong foundation in HTML, CSS, and JavaScript, I specialize in customizing and optimizing Shopify themes to meet the unique needs of each client. I have a deep understanding of Shopify's Liquid templating language and its ecosystem, allowing me to build dynamic and responsive websites that enhance the overall user experience.

Throughout my career, I have successfully collaborated with cross-functional teams, including designers and backend developers, to bring concepts and ideas to life. I have a keen eye for detail and strive for pixel-perfect implementation while ensuring compatibility across various browsers and devices.

My expertise extends to integrating third-party apps, implementing SEO best practices, and optimizing website performance for faster loading speeds. I stay up to date with the latest industry trends and continuously expand my skill set to provide cutting-edge solutions to my clients.

I am a highly organized and efficient professional, capable of managing multiple projects simultaneously while meeting deadlines and delivering high-quality work.

Professional Experience

DIT Interactive PVT. LTD. | Sr. Shopify Developer
2021 – Present

Key responsibilities:

- Customizing Shopify Themes: Utilize HTML, CSS, and Shopify's Liquid templating language to customize and modify Shopify themes to meet client requirements and design specifications.
- Responsive Web Development: Develop mobile-friendly and responsive websites that provide seamless user experiences across different devices and screen sizes.
- Collaboration with Designers and Backend Developers: Work closely with designers to translate design mockups and wireframes into functional Shopify storefronts. Collaborate with backend developers to integrate frontend code with backend systems and ensure seamless data flow.
- Third-Party App Integration: Integrate and configure third-party apps and plugins to extend the functionality of the Shopify store, such as payment gateways, shipping providers, email marketing tools, and analytics platforms.
- Performance Optimization: Optimize website performance by minimizing file sizes, leveraging caching techniques, and optimizing code to improve page loading speeds and overall user experience.

Bronisquad Technology | Junior Web developer
May 2021 – July 2021

Key responsibilities:

- Website Development: Assist in the development and maintenance of websites, using HTML, CSS, and JavaScript to create responsive and user-friendly web pages.
